UN EQUILIBRATO GIOCO DI FORME GEOMETRICHE RIGIDE E MORBIDE

BALANCED GAMES BETWEEN RIGID AND SOFT GEOMETRIC SHAPES

La collezione si avventura nell'affascinante mondo dell'architettura e del design moderno e di avanguardia per analizzare e applicare il virtuoso connubio di forme rigide e morbide.

Le fibbie per cintura realizzate dai nostri maestri artigiani fondono superfici lisce dorate e argentate.

Alle forme classiche viene data vivacità con discreti intarsi multicolore, in una collezione che dona una nuova dimensione agli elementi geometrici classici.

Welcome to the fascinating world of "Geometric" collection, a collection of buckles for belts that explore the interesting union between rigid and soft geometric shapes. This collection is inspired by architectural features and modern, cutting-edge design.

Basic geometric elements achieve new dimensions in this collection. Smooth gold and silver finishes blend together, while multi-coloured inlays add a touch of subtle energy to this classic shape.

CORNICE E CONTENUTO DIVENTANO PROTAGONISTI DI ELEGANZA

FRAME AND CONTENT
BECOME PROTAGONISTS OF ELEGANCE

Queste fibbie automatiche sono molto più di un semplice accessorio: sono l'incarnazione di interpretazioni dal design pulito che, grazie ai contrasti tra i trattamenti di spazzolatura artigianale e la nickelatura, acquisiscono un carattere elegante.

Ogni fibbia enfatizza la bellezza delle linee e la perfezione delle forme. L'arte dell'artigianato si manifesta nei dettagli dei trattamenti superficiali. La spazzolatura artigianale crea un'opacità sottile e una sensazione di calore, mentre la nickelatura conferisce un tocco di lucentezza. Questi contrasti raffinati danno vita a un carattere unico ed elegante.

These automatic buckles are much more than just an accessory – they embody the expression of a neat design which, thanks to contrasting craft features such as brushing and nickel-plating, provides truly sophisticated vibes.

In each buckle the beauty of the lines and the perfection of the shapes are fundamental issue. The art of craft experience is expressed in the detail of surface treatments. Skilled brushing creates a subtle opaque look and the sensation of warmth, whereas nickel-plating creates a touch of lustre.

These sophisticated contrasts create a unique, elegant character.
